VISIT THE MUSEUM...

- Spend 30 minutes to an hour exploring self-guided exhibits interpreting Saranac Lake's history as a world-wide center for TB research and patient care.
- Listen to an optional audio tour.
- Explore special rotating exhibits.
- View our short historical films.
- Visit the museum store.

ABOUT THE LABORATORY

In 1894, Dr. E.L. Trudeau founded the Saranac Laboratory for the study of tuberculosis, the first of its kind in the nation. The stone and steel laboratory served as a center for scientific research on TB and other lung diseases until its closure in 1964, when the modern Trudeau Institute was established.

ABOUT HISTORIC SARANAC LAKE

Founded in 1980, Historic Saranac Lake operates the museum, and hosts talks and tours of area historic sites such as the Bartók Cabin. For a schedule of events see: historicsaranaclake.org/events.

Made possible, in part, by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.
